Printed in Great Britain by the University Press, Cambridge

CONTENTS

No. 1, February 1987

PAGE

M. Regnault. Nitrogen excretion in marine and fresh-water Crustacea . . 1

S. Sen, G. Talukder & A. Sharma. Age-related alterations in human chromosome composition and DNA content *in vitro* during senescence . 25

G. A. Ahearn. Nutrient transport by the crustacean gastrointestinal tract: recent advances with vesicle techniques 45

F. R. Moore. Sunset and the orientation behaviour of migrating birds . . . 65

No. 2, May 1987

Jeffrey W. Shultz. The origin of the spinning apparatus in spiders . . . 89

James Michaelson. Cell selection in development 115

Martin D. Brand & Michael P. Murphy. Control of electron flux through the respiratory chain in mitochondria and cells 141

No. 3, August 1987

Hartley, S. E. The chromosomes of Salmonid fishes 197

D. H. Jennings. Translocation of solutes in fungi 215

N. F. Gray. Nematophagous fungi with particular reference to their ecology . 245

M. J. Benton. Progress and competition in macroevolution 305

No. 4, November 1987

A. L. Panchen & T. R. Smithson. Character diagnosis, fossils and the origin of tetrapods 341

J. J. Legrand, E. Legrand-Hamelin & P. Juchault. Sex determination in Crustacea 439

J. H. S. Blaxter. Structure and development of the lateral line 471

W. T. Wcislo. The roles of seasonality, host synchrony, and behaviour in the evolutions and distributions of nest parasites in Hymenoptera (Insecta), with special reference to bees (Apoidea) 515
